WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Rain and mountain snow will continue through early Monday morning with impacts to Sierra-Cascade travel.
- Snow levels dropped to around 3,000 to 3,500 feet from roughly I-80 southward.
 - A Winter Storm Warning remains in effect until 0500 hours on 05/20/19 for elevations 6,000 feet and above.
- Monday evening will see another system impacting northern California, bringing more rain and mountain snow into Tuesday evening.

SOUTHERN CALIFORNIA

- A Winter Storm Warning is now in effect for the Southern Sierra Nevada through 2300 hours tonight. Snow levels around 5,500 feet with significant accumulations above 6,000 feet.
- A few strong thunderstorms are possible this afternoon and evening in the Southern Sierra Nevada, Southern Sierra Nevada foothills, and eastern portion of Kern County.
- Scattered showers will continue through tonight, however chances of thunderstorms will move further inland by the afternoon.

WEATHER KEY POINTS

05/19/19 - 05/25/19

Sunday

- Gusty winds across much of the state (especially southern and inland) Sunday will mainly impact travel. Localized downed branches and weak trees are also possible.
- Showers and thunderstorms are expected across the state today.
 - Heavy snow will impact travel over the Sierra today. Total snowfall amounts up to 12 inches possible at the pass levels and 24 inches at the higher peaks.

Monday-Saturday

- The weather will remain active through next week, especially across the northern half of the state, with additional storm systems moving across the area.
- By the end of the week, weather systems moving through will bring snow to only the highest peaks of the Sierras.
